SEP 6

Dear Mr. Reilly:

Deborah Shepperson of the Ethyl Corporation has furnished me with a pamphlet called: HITEC 3000 Performance Additive, Clean Fuel for America's Future.

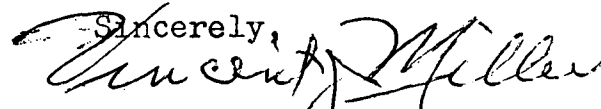

I have read this pamphlet and find it most interesting in what HITEC 3000 can do as an additive to gasoline.

I am strongly in favor of obtaining greater performance from our use of gasoline and even more strongly in favor of reducing the pollutants caused by the use of gasoline in the automobiles in America.

May I urge you to consider the merits of the Ethyl Corporation's HITEC 3000 Performance Additive and its use to alleviate our serious smog problems of today and the days to come.

I am asking Deborah Shepperson to furnish you with a copy of this pamphlet knowing it will interest you as much as it does me. Your assistance on this matter will be most appreciated.

Sincerely,

Vincent J. Miller
